IS YOUR HEALTH GRADUALLY SLIPPING?

Interesting Experience of a Texas Lady Who Declares That If Women Knew About Cardui They Would Be Spared Much Sickness and Worry.

Nearby, Texas—Mrs. W. M. Peeler, in this place, relates the following interesting account of how she recovered her strength, having realized that she was actually ill for health.

"Health is the greatest thing in the world, and when you feel that gradually slipping away from you, you certainly sit up and take notice. That is what I did."

"I had a short while ago been diagnosed as having a condition of asthma. I was so tired and lost of breath,

"I was just no account for work. I would get a bucket of water and would feel so weak I would have to set it down before I could lift it to the shelf. In this condition, of course, to do even my housework was a task almost impossible to accomplish.

"I was . . . nervous and easily upset. I couldn't rest well at night and just lived."

"I heard of Cardui and after I decided I had some female friends putting me down. I sat up and began . . ."

"In a very short while I began to feel better and appeared splendid and much stronger so that I took more work."

"Later I took a bottle of Cardui, I can recommend Cardui. I really do so, for more women have suffered a great deal of worry sickness."

The enthusiastic praise of these other women who have found Cardui helpful should convince you the world trying. All druggists sell

"I was . . . nervous and easily upset."
